

# Agile E+ Max107

## Simplify your work. Maximise results.

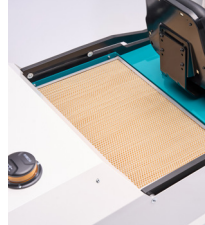

**AGILE E+ MAX 107** is a compact and manoeuvrable ride-on sweeper, designed to deliver effective cleaning in a simple and practical way.

Its fully metal structure ensures strength and long-lasting durability, while offering excellent flexibility for customisation and adaptation to operational and branding requirements.

The bag collection system makes emptying quick and safe, protecting the operator from direct contact with dust, while the raised dust filter ensures high filtration efficiency.

Easily accessible components simplify and speed up all maintenance operations.

**AGILE E+ MAX 107** is the ideal solution for those looking for an essential, reliable machine ready to work every day, without complications.

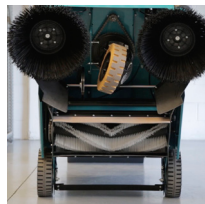

### RAISED DUST FILTER

The filter, easily accessible, is positioned higher up, away from the waste drawer and moisture, ensuring better filtration and longer lifespan.

### DIRT IN BAG SYSTEM

The dirt is collected directly in two disposable bags placed in the container with rollers. This system protects the operator from contact with dust.

### EASY MAINTENANCE

Easy access to all components. The machine can be positioned vertically to facilitate maintenance.

### ALL-METAL STRUCTURE

A fully metal construction ensures robustness and durability over time, as well as flexibility for customisation.

### SHOCK-PROTECTED BRUSHES

Side brushes with electric motors are mounted on flexible supports and automatically retract in case of impact with obstacles.

# AgileE+ Max107

## TECHNICAL DATA

Hourly efficiency	9.000 m <sup>2</sup> /h
Working width (central brush)	700 mm
Working width (with two side brushes)	1.200 mm
Autonomy	3-4 h
Maximum speed	7,5 km/h
Work climbing ability	19%
Waste container	70 L
Dirt-in-bag system	Si
Filter surface	4 m <sup>2</sup>
Electric filter shaker	24 V
Tank capacity	30 L
Nozzles	no. 2
Motor power and supply	700 W Battery 24 V
Motor speed	3.000 rpm
Noise level	73 dB(A)
Dimensions: Length Width Height	1.620 mm 965 mm 1.400 mm
Weight without batteries	300 kg

## SECTORS

- Light industry
- Cleaning contractors
- Logistics
- Shopping centres

## FEATURES

- Easy to use, even for non-specialised operators. The driving position and handling make operation simple and comfortable.
- No driving licence required.
- Anti-shock side brushes with automatic retraction in case of impact.
- Powerful suction system, effective even on fine dust.
- Equipped with a steering drive wheel, allowing tight turning radius and excellent manoeuvrability.
- On-board battery charger.
- Panel dust filter, easy to maintain, available in paper, polyester or HEPA. For heavy-duty environments, a pocket filter is also available.
